We are your Chicagoland in-home and group tech tutors!

This catalog is just a starting point for planning your next adult technology education class. Most classes last 1 to 1.5 hours, after which we will stick around in order to offer troubleshooting.

Talk to us about creating a customized class for your audience!

TECHNOLOGY TRENDS

What's Hot in Tech?

Curious to about what's happening in the world of personal technology? This class will cover all the hottest news about the coolest tech coming around the corner - such as autonomous vehicles and drones - as well as what the more distant future might hold.

Wearable Technology

We'll take a look at current and forthcoming wearable technology such as Apple Watch and Fitbit and consider how wearables will affect our lives as they interact with the world around us.

Virtual Personal Assistants

Siri, Alexa and Cortana are the biggest names in tech right now, as virtual personal assistant devices are battling their way into our phones and homes in order to make our lives easier.

SOCIAL MEDIA

Instagram and Snapchat

Everyone loves sharing photos and videos, so it makes sense that Instagram and Snapchat have become two of the most popular social networks. This class will show the differences and get people started.

LinkedIn 101

Learn how to use the social networking site LinkedIn to connect with other professionals, find jobs and keep on top of business news.

Facebook 101

Learn the basics about how to use the most popular social network to stay in touch with friends, share photos and video, follow organizations and causes and more.

Pinterest

Collectors, home decorators, cooks and other hobbyists have been turning to Pinterest for years to look for inspiration and ideas. Learn everything you need to become a Pinterest enthusiast.

Your Smart Home

The future is now! Apple, Amazon, Google and others have released products to help make your home smarter. Learn what's available, what's around the bend and all the trends leading to "The Internet of Things".

Bitcoin and Cryptocurrency

You can't read the news without seeing hype about Bitcoin and other cryptocurrencies. Is this the first wave of a cashless future or just an overhyped technology? One thing is for sure: there's a lot of money riding on its success.

Autonomous Vehicles

The news is filled with wondrous stories about a future of self-driving cars, and there are already many on the road. How realistic is this future, when can we expect to see these types of vehicles and how will it all roll out? This class will tell all!

Blogging 101

Got something to say? Say it in a blog! We will teach you how to use Blogger as a hobby, for promoting your skills or to make money. We'll also take a look at some of the other options for blogging, including WordPress and LinkedIn.

Twitter 101

Learn how to use Twitter to stay in touch with causes, businesses and celebrities, promote your business or simply share your own interests with the world.

Advanced Facebooking

Facebook continues to offer more ways to customize your experience. We will show you everything you need to know about privacy, taming your news feed, creating groups and more.

Facebook for Businesses and Entrepreneurs

If you're looking to expand your business's audience then you may want to be a part of the largest social network. This class will discuss Facebook page creation and maintenance as well as Facebook advertising.

SOCIAL MEDIA (Cont.)

Social Media for Businesses and Entrepreneurs

There's no shortage of social media sites to promote your business but which ones are the best for you? This class will give you the basics of Facebook, Twitter, Instagram and more and show you what you need to know to choose the most useful ones and get started.

Online Advertising

Facebook, Twitter, Google, LinkedIn and Instagram all offer paid options for getting your message heard. Learn about your best options for advertising online, how to create your ad and the most effective ways to target potential clients.

COMPUTERS, SMARTPHONES AND TABLETS

Mac Basics

New to Apple computers? We'll show you everything you need to know about using mail, surfing the web, keeping the computer updated and backed up and more!

iPhone and iPad Basics

Learn everything you need to know to get started with iPad or iPhone, from basic navigation to customization to handy tricks.
